

Lionel Collectors Club UK
Membership Application Form

A Club For Collectors And Operators Of North American 'O' & 'S' Gauge Electric Toy Trains

North American three rail 'O' gauge electric trains, run on approximately 20 volts A.C. They are coarse scale 'O' gauge and differ from modern British 'O' gauge in their use of the third rail, and of A.C., rather than D.C. However some early Hornby electric trains used this system. The manufacture of these American trains started just after the turn of the century, about 1906. Up to World War II, most of them were in tin-plate and die-cast metal. After World War II plastics replaced the tin-plate, while use of die-cast continues. Less well known is the slightly smaller 2 rail 'S' gauge

The following is a brief precis of their manufacturers history, with apologies for any omissions:

Lionel Trains Inc. is the sole survivor of the major North American Pre- World War II 'O' gauge manufacturers. Ives, and A.C. Gilbert's American Flyer were acquired by Lionel, when they hit difficulties in 1930, and 1966 respectively. Postwar manufacturers K-Line and Weaver are sadly no longer in production. Today the main competition to Lionel comes from newer manufacturers Atlas O, MTH (Mikes Train House), and Williams Electric Trains by Bachmann, who have entered the field in the last 20-30 years.

Those who went to London just before Christmas in the 1950s and early 1960s will possibly have seen the 'Gamages' Christmas display, which included an extensive selection of Lionel's products.

Interest in the North American trains has revived with the formation of the 'Lionel Collectors Club UK ' in 1980. The club currently has over 70 members and publishes "Shortline" quarterly. The magazine includes articles of interest relating to all aspects of American three rail 'O' gauge, the North American Railroads on which they are modelled, repair and service tips and items "For Sale" and "Wanted". The club has an annual show in the Trinity Methodist Church Hall, Leicester, late May / early June, and also runs a layout at various local shows.

The membership does not indulge in promoting collections for investment, but merely to promote the fun and pleasure of operating trains.

Name: _____

Address: _____

Postcode: _____ **email:** _____

Phone: _____ **Mobile:** _____

Signed: _____ **Date:** _____

Once you have completed the above form, please send it or email it to the address below.

It would be greatly appreciated if subscriptions are paid by Standing Order or BACS. Paying in cheques has become much more difficult.- Please mark BACS payment with your name.

RBS sort code 83-18-01 a/c 15012461 - account title "Lionel Collectors Club".

Current subscription : £20

For membership outside of the United Kingdom:-

Australia, New Zealand and the USA please **add £15.00** to the Dues.

Europe please **add £5.00** to the Dues.

If remitting in **U.S. Dollars**, please make cheque payable for **\$70.00**.

PLEASE READ THE PRIVACY NOTICE ACCOMPANING THIS APPLICATION FORM

PRIVACY NOTICE

This is the privacy notice of the Lionel Collectors Club UK (LCCUK), the data controller.

Personal data is data which can be used to identify you.

This statement sets out how the LCCUK will use your personal data.

The personal data we collect is each member's name, address, phone number and email address. We collect this data directly from our members and do not hold any other personal data. The data is held as computer files protected by standard virus and hacking software and is only accessed by the Secretary/Treasurer and Shortline Magazine Editor to enable them to administer the LCCUK.

The legal basis under which we will process your personal data is for your own legitimate interest.

The personal data we hold will not be shared with third parties.

Former member data will be deleted after two years or earlier on request.

We will use your personal data in the following ways.

- To send you the LCCUK Shortline magazine.

- To remind you that membership subscriptions are due to be paid.

- To inform you of events organised by us, and to invite your participation as helper, exhibitor or trader.

You have rights under applicable data protection law as set out below.

- To be given a copy of the data held.

- For data to be corrected, amended or erased.

- To be informed about processing (use).

- To object to or restrict the processing (use).

- To be informed how the data is processed (used).

- To complain to the Information Commissioner's office.
